Figure 1 consists of six panels, labeled A through F, arranged in a 2x3 grid. Each panel is a fluorescence micrograph showing a cell or cells. Panel A (top left) shows a cell with a bright, diffuse fluorescence signal. Panel B (top middle) shows a cell with a very bright, well-defined nucleus and some diffuse signal. Panel C (top right) shows a cell with a bright, diffuse fluorescence signal. Panel D (bottom left) shows a cell with a bright, diffuse fluorescence signal. Panel E (bottom middle) shows a cell with a bright, diffuse fluorescence signal. Panel F (bottom right) shows a cell with a bright, diffuse fluorescence signal.
